EDUCATION

DePaul University Chicago, IL
Bachelor of Arts in Philosophy | Minors: Finance & Data Analytics Expected May 2029
GPA: 3.96/4.00 | Dean's List | Dean's Award for Scholastic Excellence (Top 5%)
Activities: DePaul Consulting Group; Inclusion in Finance

EXPERIENCE

AXA Partners Chicago, IL
Finance Operations & Analytics Intern Aug 2026 - Oct 2026
- Produced U.S. and Canada KPI reporting across provider payments, client invoicing, collections, and cash posting; analyzed 17,900+ monthly PeopleSoft records and presented account-level exceptions to Finance and AR leaders.
- Reconciled AR aging, remittances, and payment fallout across currencies and reporting sources, translating root-cause findings into follow-up actions for finance operations.
- Designed and built ATLAS, a JavaScript/Python workflow that imports CSV/XLSX files, automates KPI calculations, visualizes trends, exports fallout records, and routes exceptions through a Resolution Desk.

Joe Holberg for Chicago Mayoral Campaign Chicago, IL
Data Analytics & Technology Intern Jun 2026 - Jul 2026
- Built voter-analytics software that unified public election and campaign datasets, segmented outreach priorities, and visualized neighborhood trends in Power BI to inform field strategy.
- Integrated an AI-assisted constituent information tool into the campaign website and maintained outreach workflows for volunteers, public events, and voter engagement.

Amish Country Farms Chicago, IL
Corporate Development & Finance Intern (Part-Time) Jan 2024 - Jun 2026
- Supported the SweetRise acquisition and post-close integration by analyzing revenue, pricing, costs, and product-level profitability; summarized findings and margin opportunities for ownership.
- Built reusable financial models, KPI dashboards, and forecasting tools that reduced recurring revenue and cost analysis time by 80%, improving visibility into margins and operating performance.

Ivy League Kids Chicago, IL
Healthcare Data Analytics & Research Intern Aug 2024 - Dec 2024
- Analyzed K-8 student outcome data to assess social-emotional development and intervention effectiveness for students with disabilities.
- Synthesized medication observations and behavioral changes into structured research findings for program decision-making while maintaining sensitivity and accuracy in student data.

SELECTED PROJECTS

DataBearer
Founder & Developer Aug 2026 - Present
- Built a privacy-governance platform combining a Consent Ledger, valuation logic, analytics, and structured-data exports; defined the product architecture, roadmap, and business model.

DealLens
M&A Analysis Platform Sep 2026 - Present
- Developed a browser-based acquisition model for enterprise value, financing mix, EPS accretion/dilution, synergy break-even, and 25-case sensitivity analysis; validated outputs with 13 automated model checks.
- Designed an interactive analyst workspace with downside scenarios, assumption import/export, and downloadable deal memos and earnings bridges.

AFTERLIGHT
Browser Puzzle Game Sep 2026
- Built a six-level JavaScript/Canvas puzzle game with touch controls, replay mechanics, and 16 automated gameplay tests, demonstrating end-to-end product design and software delivery.
